

AI Use Declaration Form

Course: Introduction to Artificial Intelligence

Lab Title: Lab 2

Student Name: __Janet Dankwah

Nortey_____

Student ID: ____ 23112028 _____

GitHub Repository Link: _____

Date Submitted: _____ 16/08/26 _____

1. AI Use Summary

Question	Student Response
Did you use any AI tool for this lab?	yes
Estimated percentage of the work influenced by AI	15%
Did you attach evidence of AI use where applicable?	yes

2. Details of AI Use

Complete the table below for each AI tool used. Add more rows where necessary.

Name of AI Tool Used	Purpose for Using the Tool	Prompt or Instruction Given to the Tool	Part(s) of the Work Influenced by the Tool	How I Verified, Edited, or Improved the AI Output
ChatGPT	To understand the lab instructions, understand LLM concepts, debug code, and interpret the outputs from	Explain this part of the lab, Help me understand this error and Explain what this output means	Understanding the API calls, structured extraction, temperature experiments, reliability testing, hallucination	I compared the explanations with the lab instructions, checked the code and outputs in Google Colab, and used the

	the experiments.		probing, and reflection questions	actual experiment results to write the final answers.
Groq API (Llama 3.3 70B)	To process the loan letters using a foundation model for summarization, structured extraction, and decision-support briefs.	Prompts such as the SUMMARY_PROMPT, EXTRACT_PROMPT, and BRIEF_PROMPT, with instructions to use only information from the letters and return structured information.	Parts 1–4: summarization, JSON extraction, decision-support briefs, accuracy evaluation, reliability testing, and hallucination probing.	I compared the generated summaries and extracted fields with the original letters and gold labels. I also tested different temperatures, checked JSON validity, measured consistency, and performed adversarial hallucination tests

3. Attachment of AI Output Evidence

Where required, attach evidence of AI use. Tick all that apply. Add more rows where necessary.

Evidence Type	Attached? (Yes, No, N/A)	File Name
AI-generated draft		

Prompt history	yes	1. "Explain what we have to do here." 2. "Explain 4.1." 3. "Explain this in words so I can do the code myself." 4. "How do I run this?" 5. "How do I do the JSON thing?" 6. "Why am I getting this error?" 7. "Why can't we use the <code>extract_fields</code> function?" 8. "Can we put the temperature in the function and specify it with letters?" 9. "Why are all the letters failing to extract?" 10. "Explain what this output means." 11. "How do I count the valid JSON and unique outputs?" 12. "What does this result mean?" 13. "Let's do 4.2." 14. "Explain 4.2." 15. "Let's do 4.3." 16. "What does this section mean?" 17. "Why did the model give this output?" 18. "Use this output to explain what happened." 19. "Let's do the next section." 20. "Let's fill this table." This is much closer to your actual use of ChatGPT as a learning/debugging tool, understanding sections, troubleshooting errors, interpreting outputs, and running the code.

4. Student Declaration

I declare that:

Declaration Statement	Response (Yes/No)
The submitted work is my own work.	yes
Any use of AI tools has been clearly declared in this form.	yes
The prompts, instructions, and AI-generated outputs have been disclosed where applicable.	yes
I reviewed, tested, edited, and improved any AI-generated content before submission.	yes
My AI usage does not exceed 25% of the entire work.	yes
I understand that undeclared or excessive AI use may be treated as academic misconduct.	yes
